Dear Jim, Thanks for the Daily World 2/17/72 (incomplete) on the Nixon plan to avoid election. I remember something about the 1972s but not 1970s. Especially when Hinkle has a book to promote and the original story was in his Scanlons is this rather mysterious, that is, not being Watergate recalled. I can so this much: the more I see of his work the more questions I have about it and him. I kept no file on whatever I heard of this, at least not under Scanlon's or Rand. And I do think that some of his stuff was exactly the kind of "input" the Nixon Gestapo wanted, used, and manufactured when they did not find it readily available. If there was doubt of this pre-WG, there is little now, none justified in my view. HW 7/5/73
